Think back — often a retrospect
delights the mind. — Dante

LAGRANGE COLLEGE QUADRANGLE
LaGrange, Georgia

Memory is not wisdom;
idiots can by rote repeat
volumes. — Yet what
is wisdom without
memory?

Tupper

*LaGrange College, founded
1831, has survived four wars and
three fires, yet exists today to offer us a
way of life.*

*Who knows the why and wherefore of
our existence?*

*In our everyday hustle
and bustle, we forget the
purposes of life.*

When we slow from our hurried lives,

. . . we discover the beauty
of the world around us which
has been and will always be.

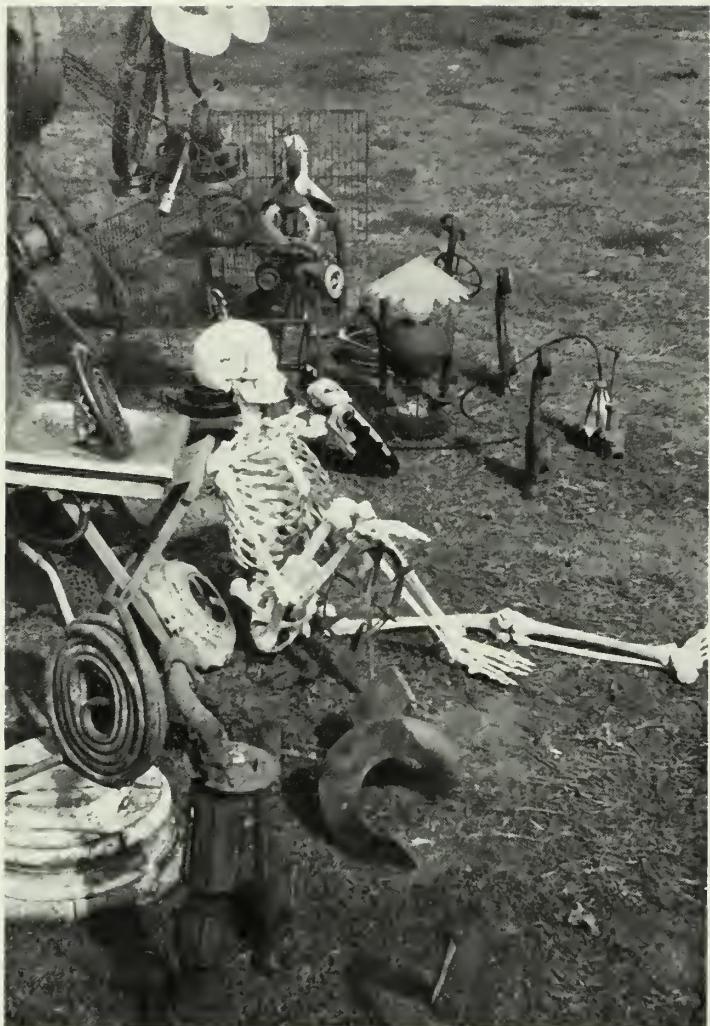

I will not follow where the path may lead, but I will go where there is no path, and I will leave a trail.

Muriel Strode

independence

Independence

Thinking and acting for one's self; self directing; proceeding from or expressive of a spirit of independence.

These words characterize the force that propelled our nation to freedom two hundred years ago. It is this same spirit of Independence and self determination upon which Mansoor's was founded. Since 1917 we have thought and worked for ourselves: striving to bring the best to our community. We pledge to continue our service to the people of West Georgia and East Alabama in bringing the finest clothing and most complete service to be found anywhere.

Working for a better tomorrow . . .

Many a yard of fabric has come from the looms since WestPoint Pepperell had its beginning in the 1800's---fabric for covered wagons, tents, airplanes, clipper ships, blimps, and even space craft.

Textiles carried a heavy load in the early days of our country, and they are basic in today's complex world. Fabric is needed for thousands of end uses and WestPoint Pepperell supplies fabric for most of them. Many of our fabrics are used by other companies in making their own products. These we develop and engineer for specific needs.

Today's textile industry is virtually a universe of diversification. Whatever the fabric need, WestPoint Pepperell is ready and willing to tackle the challenge---producing better fabrics for a better tomorrow.

1976 Quadrangle Dedication

April 30, 1976

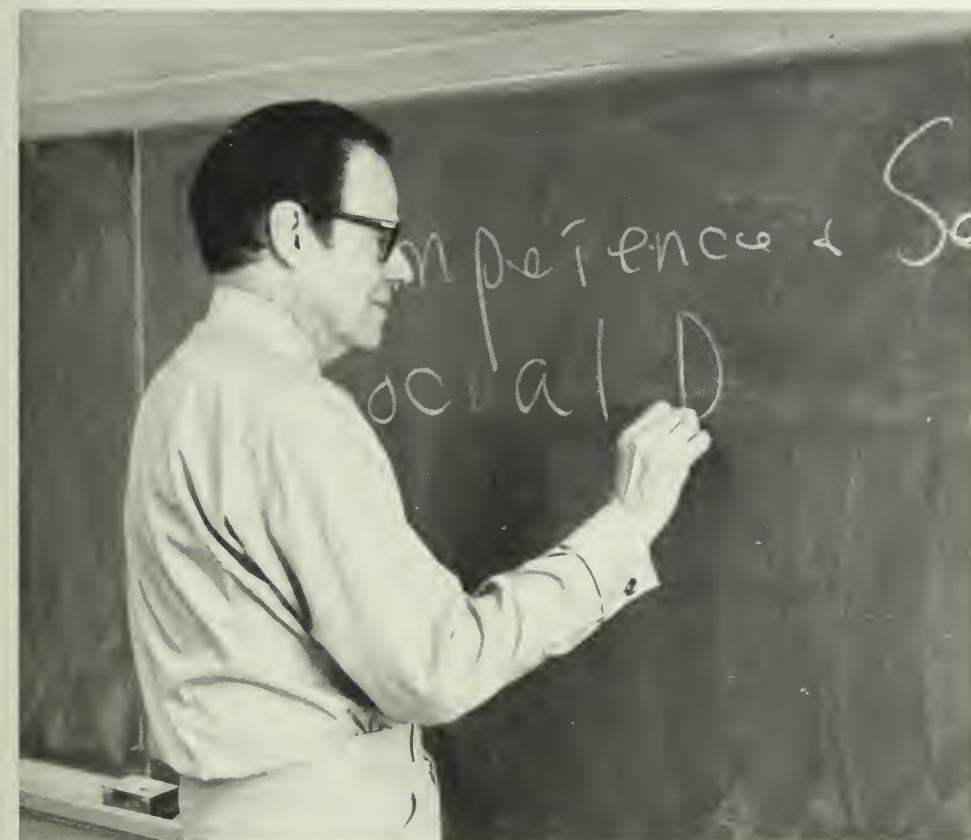

The Seniors of LaGrange College have chosen to dedicate the 1976 QUADRANGLE to a well-deserving professor. He is open, friendly and helpful to all students in or out of the classroom. As well as an educator, he is a Methodist minister who founded the church at Tybee Island, Georgia. He is said to be extremely animated in the classroom, and his hobbies include classical music, counseling, and writing character sketches.

He was born in Martinsville, Virginia, and came to LaGrange in 1971 as the Fuller E. Callaway Professor of Psychology. When asked why the college appealed to him, he replied it was because of its emphasis on full-time teaching of quality. This professor rightly said of himself, "I have always been able to get the best from the student when I have expected it." In his philosophy on education, he stated, "Once a student is admitted to a campus, I feel it the obligation of the school to take the diamond in the rough he may be and surround him with tools he may use to bring about his own polished brilliance." Dr. Robert Preston Price most assuredly provides the students of LaGrange College with the tools to perform this feat.

EPILOG

*We are never present with, but always beyond
ourselves — Fear, desire and hope still pushing
us on toward the future.*

Montaigne

As this has been the bicentennial year, the 1976 QUADRANGLE staff has attempted to take a look back into the history of LaGrange College as well as to record the events of the past year. We hope you will appreciate this rich history and recognize the rôle it plays in our lives today.

My thanks go to the photographers, staff members, and our representative for the many hours they have put into this book. There have been many frustrations, but we are proud to present this yearbook and hope you share our pride.
